

# STRETCHER FRAMES MIRRORED OR WRAPAROUND EDGES

**Classic Frame:** depth of frame: 1.8 cm

**Museo Frame:** depth of frame: 4.5 cm

There are two options for the image's edges: with **wraparound edges**, the borders of the image extend around the sides. This method is great for images that have a sufficient buffer of image material at the edges. On each side, 2.0 cm or 4.7 cm of image (depending on the stretcher frame's depth + 2 mm) will be wrapped around the frame and will no longer be visible from the front.

**Mirrored edges** are recommended for pictures that cannot afford to have any part of the picture be less visible.

On each side, the outer 2.0 cm or 4.7 cm are mirrored and printed at the edges before the canvas is wrapped.

By mirroring the outer areas of the picture on the sides of the canvas, we ensure your entire photo remains visible from the front.

Additional canvas of 2.0 cm or 4.7 cm depending on the depth of the frame is necessary to wrap the image around the frame!

= visible graphic size

= all over addition = 4.0 cm by a **Classic frame with wraparound edges**

= all over addition = 9.4 cm by a **Museo frame with wraparound edges**

**EXAMPLE:** Final size of stretcher frame (visible front size) = 1.000 x 1.000 mm

**Classic Frame with wrapped around edges:** Size of graphic = 1.040 x 1.040 mm + 3 mm bleed

**Museo Frame with wrapped around edges:** Size of graphic = 1.094 x 1.094 mm + 3 mm bleed

**Wraparound edges:** Please make sure that no essential elements or parts of the images are placed in the additional canvas area!

**Classic Frame with mirrored edges:** Size of graphic = 1.000 x 1.000 mm + 3 mm bleed

**Museo Frame with mirrored edges:** Size of graphic = 1.000 x 1.000 mm + 3 mm bleed

**Mirrored edges:** Edges are automatically mirrored by us if you send images in the final visible sizes. Otherwise - in the case you want plain, white edges - please let us know in advance!

## Wraparound Edges

Send your image file with an allover addition of 4.0 cm (each side 2.0 cm per Classic) or 9.4 cm (4.7 cm each side per Museo) if you like to order a stretcher frame with **wraparound edges**.

## Mirrored Edges

Edges are automatically **mirrored** by us if you send image files in the final visible sizes. Otherwise - in the case you want plain, white edges - please let us know in advance!

## White Edges

In the case you want plain, **white edges** - please let us know in advance! We will make sure that the edges will not be printed. It's on us - you don't have to do anything further!

## Black Edges

In the case you want plain, **black edges** - please let us know in advance! We will make sure that the edges will be printed in black. It's on us - you don't have to do anything further!
